The University tower chimes ringing another session of Ask the Professor the show on which you match wits with the University of Detroit Mercy professors in an unrehearsed session of questions and answers. I'm your host, Matt Mio. And let me introduce to you our panel for today to my left, unable to use her left hand, it's Professor Beth Oljar.
- B** Beth Oljar 00:22
Good to be here, even though I'm in pain..
- M** Matt Mio, Ph.D. 00:25
Yeah, I'm sorry, When is the surgery?
- B** Beth Oljar 00:26
Uh, it's supposed to be within a week or two.
- M** Matt Mio, Ph.D. 00:28
Oh my gosh! That's really soon.
- B** Beth Oljar 00:31
He said it was severe. So I'm freaking out a little bit about teaching Symbolic Logic. I'm left handed

nanueu.

J Jeffe Boats 00:38
Don't look at me.

B Beth Oljar 00:41
Actually it just occurred to me.

J Jeffe Boats 00:42
I'm a writer now. Leave me alone.

B Beth Oljar 00:45
Oh, okay.

M Matt Mio, Ph.D. 00:47
Yeah, that's, I mean -

B Beth Oljar 00:49
Apparently, it got really bad, really fast.

M Matt Mio, Ph.D. 00:51
Yeah. And I wouldn't be surprised if you had a very, very quick recovery too, for the same reason that a lot of people are getting like major surgery. And the surgery things they can do now are just incredible.

B Beth Oljar 01:03
Hold that thought - about the quick recovery

J Jeffe Boats 01:05
You're going bionic, aren't you? I just know you are. You're gettin' a hook. Right? You're getting a hook.

B Beth Oljar 01:10
I'm gonna live in Ojai, California.

M Matt Mio, Ph.D. 01:12
Oh,

B Beth Oljar 01:12
just like -

M Matt Mio, Ph.D. 01:14
Got it.

B Beth Oljar 01:16
Somebody had to get the reference. I knew it.

S Stephen Manning 01:18
Is this arthroscopic surgery or -

M Matt Mio, Ph.D. 01:21
I would assume

B Beth Oljar 01:22
Basically they open your - I don't know if he's doing endoscopic or they put in - I mean, basically he's going to open my wrist and open the tunnel, right - so the ligament can move. But it's outpatient. So assuming it's -

M Matt Mio, Ph.D. 01:37
This is what I'm saying. There was a guy in a friend's life fairly recently that got a hip replacement and he was home within 48 hours. Like - what year do we live in? It's like - whoa!

—

S Stephen Manning 01:48
My brother had it. He was home the same day. It was outpatient surgery.

M Matt Mio, Ph.D. 01:51
Incredible. Incredible.

S Stephen Manning 01:53
He had to be back the next day for physical therapy.

M Matt Mio, Ph.D. 01:55
Right - right.

S Stephen Manning 01:56
He was home that night.

M Matt Mio, Ph.D. 01:57
That's incredible.

B Beth Oljar 01:58
When I had the surgeries done for the trigger finger, I was like watching the doctor do them

M Matt Mio, Ph.D. 02:02
Okay. Now we're crossing the line.

D Dave Chow 02:04
I'm waiting for Drive Thru service.

B Beth Oljar 02:07
Yeah, exactly

D Dave Chow 02:08
I'd like some fries with my surgery.

J Jeffe Boats 02:10
Well they can have drive through liquor stores, they could have drive thru anaesthetic now.

D Dave Chow 02:15
Isn't that the same?

M Matt Mio, Ph.D. 02:17
Professor Dave Chow is with us

D Dave Chow 02:19
Pleasure to be here, as always.

M Matt Mio, Ph.D. 02:20
And what surgeries do you have coming up?

D Dave Chow 02:21
None. None that I know of. I prefer not to.

M Matt Mio, Ph.D. 02:24
Now everybody knows what the topic of the table is going to be.

D Dave Chow 02:27
Surgery, dear Lord?

B Beth Oljar 02:28
Getting old, and what you have to look forward to

D Dave Chow 02:30
You're not getting old, Beth.

M Matt Mio, Ph.D. 02:31
We're all getting old , but it's okay.

D Dave Chow 02:33
We believe in the Benjamin Button theory, right?

M Matt Mio, Ph.D. 02:35
We're going backwards.

D Dave Chow 02:36
Yeah.

M Matt Mio, Ph.D. 02:37
Every time Beth was describing some detail of her future, Dave was twitching - His livelihood

D Dave Chow 02:47
My moneymakers are cringing right about now.

M Matt Mio, Ph.D. 02:49
My moneymakers. Oh, my gosh. Continuing around the table, Professor Dan Maggio is here with us. Thanks for bringing some great cookies today.

D Dan Maggio 02:58
Yes. Glad to join you.

H Heather Hill 03:00
Dan - Dan - Dan.

J Jeffe Boats 03:02
Yeah, you brought cookies too.

M Matt Mio, Ph.D. 03:03
Well, wait 'til I get to that side of the table.

D Dan Maggio 03:07
You're welcome.

B Beth Oljar 03:08
Equally awesome.

M Matt Mio, Ph.D. 03:09
equally awesome. Very, very nice. Yeah. How's Westborn?

D Dan Maggio 03:14
They actually have good desserts and cookies.

D Dave Chow 03:16
Oh, and the soup.

M Matt Mio, Ph.D. 03:19
It is almost soup weather. That is for dang sure.

D Dave Chow 03:21
It's always soup weather.

B Beth Oljar 03:22
.....

I could live on there soup.

M Matt Mio, Ph.D. 03:23
Yep

B Beth Oljar 03:23
I'm not kidding.

M Matt Mio, Ph.D. 03:25
Continuing around the table. Professor Jeffe Boats is here. We're so glad to have you here, Jeffe.

J Jeffe Boats 03:30
Long time, no quip.

M Matt Mio, Ph.D. 03:31
Yeah,

J Jeffe Boats 03:31
These people are making me hungry though. I want to get something to eat now.

M Matt Mio, Ph.D. 03:34
It's like shocking that we're talking about food.

B Beth Oljar 03:37
Because that never happens. Right?

D Dave Chow 03:39
Not on this show. Never.

M Matt Mio, Ph.D. 03:41

Tell folks that you've been up to Jeffe. I didn't even respond yet. But you've got a couple of manuscripts in the pipeline.

J Jeffe Boats 03:46

Yeah, I'm a writer now basically. I'm kind of in between agents on the first book, and I just finished the first draft to the second book, which a certain biochemist around here is going to give me feedback on pretty soon,

M Matt Mio, Ph.D. 04:00

That's right. It's awesome and exciting.

B Beth Oljar 04:03

Are they spy novels?

J Jeffe Boats 04:04

Yeah. A spy novel.

B Beth Oljar 04:05

A James Bond kind of thing?

J Jeffe Boats 04:06

One of the plot devices in the second book has to do with nerve toxins. So I talked to a lot of biochemist people because I don't know about that stuff. So I had to learn. Right?

B Beth Oljar 04:16

Right. Cool. That's awesome.

J Jeffe Boats 04:18

Yeah, the research part of it's more fun than the writing sometimes. My browser history. I don't know. I may get some knocks on the door soon.

H Heather Hill 04:27

 Heather Hill 04:27
Be careful.

 Matt Mio, Ph.D. 04:29
That's awesome.

 Beth Oljar 04:29
So don't kill anyone close to writing the book.

 Matt Mio, Ph.D. 04:34
Please, empty your search history now. Professor Stephen Manning is here with us today. Well, I didn't even notice until I look that you're wearing your UDMPU shirt. That's great.

 Stephen Manning 04:44
Well, when you turn the air conditioning off, people have to strip down

 Beth Oljar 04:47
It is a very cool look.

 Matt Mio, Ph.D. 04:47
Yeah. I know. I took my jacket off. So yeah, I love that shirt. I wore that on Labor Day this year

 Stephen Manning 04:51
Now that we're in strike mode in the city

 Dave Chow 04:54
Everybody's in strike mode.

 Matt Mio, Ph.D. 04:56
That is the truth right there. An immediate political capitalization by both sides. I hope it is over soon

B Beth Oljar 05:05
Did they come to an agreement?

D Dave Chow 05:08
No

M Matt Mio, Ph.D. 05:10
They have a feisty president. That's all I'm gonna say

S Stephen Manning 05:12
Oh, yeah. We heard them talk at the at the Labor Day Parade.

M Matt Mio, Ph.D. 05:15
Oh, really

S Stephen Manning 05:16
They stopped. He was one of the people who was there. Luminaries. Yeah, he's

B Beth Oljar 05:21
It's corporate greed that's the problem. And Drew's like "Testify brother!"

S Stephen Manning 05:27
We would always traditionally, when we start negotiations, we would shake hands with the president.

M Matt Mio, Ph.D. 05:32
Right.

S Stephen Manning 05:32
And that's always happened here, even during bad times. And he refused to do that this time

And that's always happened here even during bad times. And he refused to do that this time when he first negotiated, the first time he got the their proposals -

M Matt Mio, Ph.D. 05:42

Wow,

S Stephen Manning 05:43

he crumpled it up and tossed it in the basket. He said, "That's garbage. That's where it belongs."

D Dave Chow 05:47

I heard him use other words, too. So -

S Stephen Manning 05:49

Yeah

M Matt Mio, Ph.D. 05:50

Yeah. That's true.

S Stephen Manning 05:51

So, they're far apart. But

M Matt Mio, Ph.D. 05:53

From mentioning one, union president to another union president, Professor Heather Hill is here with us today.

H Heather Hill 06:00

Yeah. Somebody told me that being union president wouldn't be quite this much work.

D Dave Chow 06:05

Lies.

H Heather Hill 06:08
Part of it is that - you know, Shawn Fain keeps leaving voicemail messages for me and I just don't know how to respond. You know, it's just, you know,

M Matt Mio, Ph.D. 06:17
Oh, my gosh!

S Stephen Manning 06:18
Part of the Labor Day parade - part of the Labor Day thing we had this picture out there somewhere five former and current presidents of the UDMPU. Carol Wiseco was there sure

J Jeffe Boats 06:18
That's right, that was the parade.

S Stephen Manning 06:31
Prasad, Me, and Heather. So

H Heather Hill 06:37
I want to I want to shout out to Michael Jayson for the yummy coffee. Thank you, Michael.

B Beth Oljar 06:42
Michael is awesome, Hi Jim.

D Dave Chow 06:46
And Irish Coffee works wonders.

M Matt Mio, Ph.D. 06:48
The door pops open, and Professor Jim Tubbs pops in

J James Tubbs 06:51

Yeah, my 15 minute commute took 50

M

Matt Mio, Ph.D. 06:55

Let me guess you have to drive on. I-96

J

James Tubbs 06:58

No. It's coming down the lodge narrows down to one lane and it was backed up for three miles. So I went over to the south field, which also narrows down to one lane was backed up for two miles. So I went over to the green field, which is simply close. Then I went over to-

H

Heather Hill 07:16

Oh my goodness.

D

Dan Maggio 07:18

You should just walk here. Do you want the roads fixed or-

J

James Tubbs 07:21

Why do we always work on all the roads going into the same direction? At the same time?

J

Jeff Boats 07:27

I have a theory it's we're trying to keep Ohio State people out of Michigan during football season.

J

James Tubbs 07:32

They're successful. Successful.

M

Matt Mio, Ph.D. 07:34

Folks this is a program you can send us questions regarding anything. It's been a while since we've had some good like road or interstate questions. Let's see what happens there. If you stumped the panel, we win a prize. If you don't stop the panel, you win a prize, you can send us the questions in a number of ways. Email us at the atp@university.edu Find us on Facebook and Instagram or listen in your favorite smart speaker by asking it to play ask the professor at University of Detroit Mercy, I have to say that I ran into a random alum on campus today. And

I'll be darned if I can remember his name. I know his first name was Mark, but I'm sorry, I cannot remember his surname. And he mentioned, I would put the gentleman in his 60s or 70s. Maybe that he was an avid listener of the show back in the day. And I loved it. During middle school in high school, he listened to ATP and pledged to himself to come to U of D which he ended up doing back in the day, and having every one of the prompts on the panel for a class which he also was just like, oh, the last one was Edwin, and it was like the crowning glory of the whole thing. And he just-

J James Tubbs 07:35
The collector's item ?

M Matt Mio, Ph.D. 08:17
had this sparkel in his eye. You know what I mean? He goes what? He goes, Hey, you're the host, what? What radio stations that you want to do. And I was like-

D Dave Chow 08:54
Go listen to the podcast.

S Stephen Manning 08:55
So there was no intellectual rationale for his course selections.

D Dave Chow 08:59
I belive stalking.

M Matt Mio, Ph.D. 09:01
Exactly.

D Dave Chow 09:02
stalking. stalking.

M Matt Mio, Ph.D. 09:05
Speaking of random but random questions. We have a fact based set of 15 questions with no single theme all over the place to tease your late Friday afternoon brains sent in by none other than Stephen Mandel. So we're going to take these questions now and see what we can do with

them.

B Beth Oljar 09:23

So he can give us hints.

M Matt Mio, Ph.D. 09:26

Right? No, it's true. It's so useful. And I don't

H Heather Hill 09:29

know anything about these.

B Beth Oljar 09:30

That's right. You can go talk Samuel Leto about that.

M Matt Mio, Ph.D. 09:33

Yeah. Heather was sort of on fire in our last recording.

B Beth Oljar 09:36

I heard about that about entomology and Steven was on fire with jazz questions. That's Right.

M Matt Mio, Ph.D. 09:41

Exactly.

J James Tubbs 09:42

Then we just played cribbage over here.

J Jeffe Boats 09:46

He played with that little curling set.

H Heather Hill 09:48

 Heather Hill 09:48
The table top curling set.

 Dave Chow 09:53
The little brooms are a little tricky though.

 Dan Maggio 09:56
I keep it in the car when I was stuck in traffic.

 Heather Hill 09:58
I'm gonna find one.

 James Tubbs 10:00
I needed that today.

 Beth Oljar 10:01
Did you actually give him one?

 Heather Hill 10:03
Yeah it's a little tiny little thing. It's not-

 Dave Chow 10:06
So funny.

 Matt Mio, Ph.D. 10:07
Professors what and where is the country's highest security prison? Stephen remarks it's also the country's toughest.

 Beth Oljar 10:15
Its in Colorado.

M Matt Mio, Ph.D. 10:16
It is in Colorado. It's in Florence, Colorado, holding among others. 911 conspirators Zakaria Musawi. So

D Dave Chow 10:24
wasn't that where the Unabomber was?

H Heather Hill 10:27
He's dead now.

D Dave Chow 10:28
Yeah, yeah I know.

M Matt Mio, Ph.D. 10:29
That makes sense. Yeah, that makes sense. Baby Boomers refer to those generally speaking, born between what years?

B Beth Oljar 10:37
45 and -

J James Tubbs 10:38
65?

M Matt Mio, Ph.D. 10:40
I have to give it to you. It's 46 to 64. But I mean, what's a couple of years between?

D Dave Chow 10:45
It matters a lot for those of us born in 65.

M Matt Mio, Ph.D. 10:47
Oh, that's what I was thinking. I was thinking of the 60s and 65s.

Oh, it does. It does. Because that means you're a old XOR Right,

D Dave Chow 10:51
Darn right.

M Matt Mio, Ph.D. 10:52
Exactly. An Original XOR

B Beth Oljar 10:53
Me too.

M Matt Mio, Ph.D. 10:54
And rich and Rich

B Beth Oljar 10:55
I was born in 66.

M Matt Mio, Ph.D. 10:56
Follow up who is America's first baby boomer? I mean, they love to chart these sort of things. You know how they always announce first baby born in Detroit on January 1st at midnight and stuff like that. Very good presumably lovely lots of people -

S Stephen Manning 11:07
So what they've been born in January the first 1946

J Jeffe Boats 11:10
For VJ Day then that would be the mean isn't supposed to be postwar? I don't know.

M Matt Mio, Ph.D. 11:19
Yeah, it's you know, these things.

B Beth Oljar 11:21
Is it a person we would know or anyone famous.

M Matt Mio, Ph.D. 11:25
I dont think so, her name was Kathleen Casey Cureslang. But you know,

H Heather Hill 11:31
Why would we know that?

J James Tubbs 11:32
Real obvious question to throw at us.

H Heather Hill 11:33
Yeah, that was gonna be my next guest.

J James Tubbs 11:36
Exactly.

J Jeffe Boats 11:38
I would have guessed Karen for a first name.

H Heather Hill 11:39
Yeah, yeah me too.

M Matt Mio, Ph.D. 11:41
What was CBS Anchorman Walter Cronkite sign off?

H Heather Hill 11:45
And that's the way it was.

S Stephen Manning 11:46
And that's the way it is.

M Matt Mio, Ph.D. 11:49
What it is, but we'll give it to you.

H Heather Hill 11:50
Thank you.

M Matt Mio, Ph.D. 11:51
We'll give it to you follow up-

H Heather Hill 11:52
was now for him.

D Dave Chow 11:53
Oh That's intense

M Matt Mio, Ph.D. 11:56
What was the sign off for the follow up is what's the sign off for the NBC Buddy Act of Chet Huntley and David Brinkley when they signed off the news?

H Heather Hill 12:05
Are they smoking at the same time?

D Dave Chow 12:09
same cigarettes too- The hookah

H Heather Hill 12:14
Cann I blow the smoke

M Matt Mio, Ph.D. 12:15
The double wide cigarettes. Yeah, exactly. This one I know less although I'm not so young that I don't remember seeing David Brinkley do report

D Dan Maggio 12:23
Was that in That's The Way It Is. ?

M Matt Mio, Ph.D. 12:24
No, that's that's

D Dan Maggio 12:25
That was Edward Merle.

J Jeffe Boats 12:27
Merle was-

H Heather Hill 12:29
Goodnight

M Matt Mio, Ph.D. 12:31
no, Chet and Dave were good night, Chet. Good night, David. That Oh, set it to each Oh,

D Dan Maggio 12:36
Sounds like a Burton Ereie thing.

M Matt Mio, Ph.D. 12:38
Yeah, it does.

D Dave Chew 12:38

D Dave Chow 12:30
Yeah it actually does.

B Beth Oljar 12:39
I can still remember my mother telling me that when she was in the hospital after giving birth. To me, it was great because, you know, she got to watch Huntley and Brinkley and drink coffee and probably smoke cigarettes, as I'm sure she - none of the young mothers wanted their coffee. So she got to drink all of it.

M Matt Mio, Ph.D. 12:57
There was a there was a completely different time, one of the greatest photographic images and all of the history of American Organic chemistry is Bob Woodward. He was a professor at Harvard. And he synthesized some of the most elementary molecules at the beginning of organic ever was and he's standing over one of his grad students, by the way, fully decked out in a three piece suit, the grad student, and a bow tie and a straw hat running a distillation, no personal protective equipment, and Woodward's got a giant cigarette hanging out of his mouth in the lab. And I'm like, that was a different time. That's all I got to say. Wow.

J Jeffe Boats 13:35
I can remember in college when people smoked in the classroom, sir.

M Matt Mio, Ph.D. 13:39
Sure. Oh, absolutely.

S Stephen Manning 13:40
If you've watched a show like Madmen, they're they're constantly smoking,

B Beth Oljar 13:44
Or the movie. Good night, and good luck, right?

J Jeffe Boats 13:47
My calculus teacher at St. Bonaventure, he would smoke during class and he'd call you to the board and he'd blow smoke in your face if you were not doing it right. He was great. He'd never he'd never call anybody with their name. He had nicknames for everybody too.

D Dave Chow 14:00
I remember airbrush. My airbrush would be this haze of color in the air, and there was a smoke hanging around it to those

M Matt Mio, Ph.D. 14:08
Professors, who was the only Collegium at the June 1967 Cleveland Summit, which was a meeting of prominent black athletes who gathered in support of Muhammad Ali's refusal to fight in Vietnam?

D Dave Chow 14:21
Kareem Abdul Jabbar.

M Matt Mio, Ph.D. 14:22
That is absolutely correct. Lew Alcindor Absolutely. Yes. Yes,

S Stephen Manning 14:28
He was Lew then.

B Beth Oljar 14:29
Quite the courageous stance. It really cost him a lot.

M Matt Mio, Ph.D. 14:32
And he also didn't he also sell off all of his championship rings to give money back to the city? that sounds about right. I think he did. He's Pretty -

S Stephen Manning 14:41
He just did a cameo on. Was it billions?

H Heather Hill 14:45
No. Oh, yeah. It was Billions. Yes, it was Billions.

B Beth Oljar 14:48
I watched the first couple seasons.

H Heather Hill 14:50
With Paul Giamatti.

S Stephen Manning 14:51
Yeah, he was giving Paul Giamatti some advice.

H Heather Hill 14:53
The height differential is quite dramatic.

D Dave Chow 14:57
Oh, it could have been worse company.

S Stephen Manning 14:59
It was like me to talk about About Jalen Rose.

D Dave Chow 15:01
Hello. Oh my gosh. Does anybody remember what the Bruce Lee? You know?

B Beth Oljar 15:06
We were talking about that. Yeah.

D Dave Chow 15:08
That was the height differential.

B Beth Oljar 15:11
Bruce Lee and Kareem Abdul Jabbar and Bruce Lee is about as tall as one of Karim's legs, right. Or to his hip or something.

M Matt Mio, Ph.D. 15:19
Oh my gosh, wait for a second. When you said where did we see him recently? I would just assumed it was that a fifth drug commercial? I used to see it all the time.

B Beth Oljar 15:26
Yep that's what I remember

M Matt Mio, Ph.D. 15:27
He may need to make up some of the cash that he, you know, for selling the rings

D Dave Chow 15:31
The money that he earned on airplane?

M Matt Mio, Ph.D. 15:33
Right.

H Heather Hill 15:34
That's right.

J James Tubbs 15:36
Greatest rollover.

M Matt Mio, Ph.D. 15:38
That's so great,

J James Tubbs 15:39
Why did - you give up during the playout?

D Dave Chow 15:43
that's recovering

that's recovering

H Heather Hill 15:46
So moving on.

M Matt Mio, Ph.D. 15:47
What is the only car company that tried to mass produce a car with a stainless steel body?

D Dave Chow 15:53
DeLorean

M Matt Mio, Ph.D. 15:53
The DeLoreans

D Dave Chow 15:54
I knew you know that

M Matt Mio, Ph.D. 15:55
Bankrupt after building fewer than 10,000 cars.

J James Tubbs 16:00
They were beautiful though

M Matt Mio, Ph.D. 16:01
They were beautiful.

J Jeffe Boats 16:04
I just read in New Jersey Trump bought DeLorean is oldest state around the bed, Bedminster property.

D Dave Chow 16:13

D Dave Chow 16:13

Was it remember was it last year we also that one question we found out like Big Lots owns like the majority of the spare parts or something like.

M Matt Mio, Ph.D. 16:21

Professors? What two universities? Hint both are IVs and built archives dedicated to the complex and layered history of hip hop a genre whose origins are traced to a party in the Bronx in 1973?

H Heather Hill 16:35

Columbia,

J Jeffe Boats 16:36

Columbia.

M Matt Mio, Ph.D. 16:37

Not one of them. Dartwith? Haven't heard one yet.

H Heather Hill 16:40

Harvard?

D Dave Chow 16:41

Yale?

M Matt Mio, Ph.D. 16:41

J Jeffe Boats 16:43

M Matt Mio, Ph.D. 16:44

And Cornell Yeah. nice. Verv nice. Yeah. verv cool.

...and common, really, meet, very, meet, really, very, soon.

- D** Dave Chow 16:48
Chris Cornell right? Oh -

We are celebrating the 50th anniversary anniversary of hip hop. So yeah, what the heck night not.
- J** James Tubbs 16:56
Me and Terry Gross had a wonderful series two weeks ago. So
- M** Matt Mio, Ph.D. 17:00

Latin X is correct.
- H** Heather Hill 17:08
She thinks its insulting.

Yes. She thinks it is ethnically insensitive, and pejorative.
- J** Jeffe Boats 17:15
Well, her father doesn't believe in math. So apple doesn't fall far from the tree.

M Matt Mio, Ph.D. 17:40

M Matt Mio, Ph.D. 17:54
Yeah.

J Jeffe Boats 17:54
I think what Beth's talking about is someone who wanted pie to be set equal to three because there's a passage in Second Kings that can be loosely interpreted.

B Beth Oljar 18:03
Tha'ts probably it

J Jeffe Boats 18:04
There's a there's a bathtub for priests that's 30 cubits around and 10 cubits cross.

 Matt Mio, Ph.D. 18:54
Yes, no, it's true.

 James Tubbs 18:55
It's a breakthrough title.

D Dave Chow 18:57
It's a brand name now.

M Matt Mio, Ph.D. 18:58
She's the only non man who has ever done this sort of feat. How many men have climbed Mount Everest at least 10 times?

H Heather Hill 19:07
At least 10 times? 15.

M Matt Mio, Ph.D. 19:09
l'ts more.

H Heather Hill 19:11

D Dan Maggio 19:21

D Dave Chow 19:24
I should have brought Taco Bell.

M Matt Mio, Ph.D. 19:26
She's Busy. She's busy.

J James Tubbs 19:28
Not excused, Not unexcused

M Matt Mio, Ph.D. 19:29
Professors Michelle Yeoh who stars in the Sci Fi film, Everything Everywhere, All At Once is only the second Asian woman to be nominated for Best Actress that is an Oscar, who was a first 1935 and her role was kitty vain.

D Dan Maggio 19:30

D Dan Maggio 20:14

M Matt Mio, Ph.D. 20:15

H Heather Hill 20:22
Yeah. Yeah. Yeah. I can see, I can see

D Dan Maggio 20:26
I don't have enough quarters in my pocket.

M Matt Mio, Ph.D. 20:27
I feel like when I say this, it's all going to jive in but we're putting the pieces together. That's Merle Oberon. Was her name?

H Heather Hill 20:36
That's not who I was thinking of? Yeah, same here. Sorry that's not who I was thinking of.

D Dave Chow 20:40
No disappointment on our part.

H Heather Hill 20:41
I think we're thinking the same person.

M Matt Mio, Ph.D. 20:43
The Dark Angel was the name of her -

H Heather Hill 20:46
Merle Oberon.

B Beth Oljar 20:46
I get the having an affair with David Niven, who was hot

D Dave Chow 20:50
Suave

save

- H** Heather Hill 20:51
Hot stuff baby.
- S** Stephen Manning 20:53
Very swayed in demenor.
- D** Dave Chow 20:54
Yes.
- B** Beth Oljar 20:54
Yep.
- M** Matt Mio, Ph.D. 20:55
The perilous Shay's cemetery in Paris has entered some 1.3 million individuals, a figure equalled about half the city's living population. Can you name three celebrated artists for whom it is the final rescue?
- S** Stephen Manning 21:07
Chapin, Oscar Wilde? Jim Morrison,
- D** Dave Chow 21:11
Monet, Manet.
- S** Stephen Manning 21:13
Abelard and heloise.
- M** Matt Mio, Ph.D. 21:14
Absolutely fantastic The only one I haven't heard that's on. Stevens list is Edith Piaf. So yeah, we covered all the bases. That's great. You all are -

- D** Dave Chow 21:15
fellow Jerry Lewis.
- S** Stephen Manning 21:24
It's an interesting cemetery.
- M** Matt Mio, Ph.D. 21:25
A hard freaking core, I know isn't that like the Jim Morrison grave basically the most visited grave on earth or something?
- S** Stephen Manning 21:31
Yes. there was a bus there that has disappeared.
- M** Matt Mio, Ph.D. 21:34
Right?
- S** Stephen Manning 21:35
And but people keep leaving the little airline bottles of whiskey and packs of cigarettes and joints are on the the rocks around it.
- B** Beth Oljar 21:46
Don't quite get the Jim Morrison obsession. I mean, not that I think the doors weren't good.
- D** Dave Chow 21:51
But the obsession is a little much
- B** Beth Oljar 21:53
struck me as weird
- J** Jeffe Boats 21:55

After death especially.

M Matt Mio, Ph.D. 21:57

Passed down through at least two or three more generations, which is to me still out of the ordinary

J Jeffe Boats 22:02

The lizard king.

M Matt Mio, Ph.D. 22:04

The United States has the fourth largest Catholic population of any nation. How many native born American citizens have been turned into saints?

M Mara Livezey 22:14

Oh wow.

M Matt Mio, Ph.D. 22:15

That's a good question.

B Beth Oljar 22:16

I'm gonna say to none.

J James Tubbs 22:18

American or ?

J Jeffe Boats 22:18

No, there have been some

M Matt Mio, Ph.D. 22:20

American born people

J Jeffe Boats 22:22
13.

M Matt Mio, Ph.D. 22:24
Little High.

J Jeffe Boats 22:25
Oh, eight.

D Dave Chow 22:26
Seven.

M Matt Mio, Ph.D. 22:27
That's it at zero.

D Dave Chow 22:29
It's within the Kendra bar.

M Matt Mio, Ph.D. 22:32
It's just one. It's Katherine Drexel. That's the only one.

B Beth Oljar 22:36
What did she do?

J Jeffe Boats 22:38
Liones Casey is on his way.

M Matt Mio, Ph.D. 22:39
He's on his way. Yeah. And that'll be a great cou for Detroit. She was a an heiress from Philadelphia that basicallv modernize the health care in that area. And vou know. it's sort of a

Ben Franklin kind of thing.

J Jeffe Boats 22:51
Her first miracle was finding a parking spot in Pittsburgh anytime she wants.

M Matt Mio, Ph.D. 22:55
Exactly. For the record. It is it I guess actually, it's not even the Kendra error bars for zero Beth, because Katherine Jackson was canonized in 2000. So we went to a pretty long time with it being zero, so I gotta give you zero there.

B Beth Oljar 23:11
But I think it's kind of cool that it was a woman who was our first.

M Matt Mio, Ph.D. 23:15
Absolutely she was an heiress. She just had had a lot of money.

D Dan Maggio 23:19
She's not - don't you have to be to be a person of the cloth?

S Stephen Manning 23:22
No.

D Dan Maggio 23:24
I mean, there's hope for me.

D Dave Chow 23:26
There are miracles

S Stephen Manning 23:32
There's a Drexel University isn't there in Philadelphia.

M Matt Mio, Ph.D. 23:35
Well, that's named after her. Yeah.

S Stephen Manning 23:37
Drexel Draggers.

M Matt Mio, Ph.D. 23:38
Yeah, absolutely. Okay, it's time to go to our list from the borough's family of imponderables, I will go to something. We have a couple of minutes left here. A little bit frivolous, but it's still fun. They have written favorite Avengers superpower. Let's just you know sort of broaden that and say, you know,

D Dave Chow 24:00
Favorite generic superpower?

M Matt Mio, Ph.D. 24:02
Yeah. I mean, I know what mine is. Because every single freaking time. Deadpool one or two is on TV. I laughed, so hardcore. And the one where she's Domino and she just has a very, very lucky stuff happening to her. That is awesome. That would be a cool superpower.

J Jeffe Boats 24:20
Though. There was a character long shot in the Marvel Universe. That was his thing. The problem was whenever he'd get lucky, his friends would get unlucky. Bad things would happen to them.

D Dave Chow 24:29
Karma or black cat was always.

M Matt Mio, Ph.D. 24:31
Oh, yeah. Spiderman.

D Dave Chow 24:32

Everybody else has bad luck around her but -

B Beth Oljar 24:36
I wouldn't mind mystique. Appearance transforming.

M Matt Mio, Ph.D. 24:41
Sure. Absolutely.

B Beth Oljar 24:43
I think she even looks cool when she's blue.

M Matt Mio, Ph.D. 24:45
Yep.

B Beth Oljar 24:45
In her natural state.

M Matt Mio, Ph.D. 24:47
Raven in the more recent movies.

B Beth Oljar 24:50
Exactly.

M Matt Mio, Ph.D. 24:51
That's a good one.

D Dave Chow 24:52
I've always wanted flight so I can go and get better seats at concerts. So you just hover over, hover over the crowd

J James Tubbs 24:59
I like that one.

M Matt Mio, Ph.D. 24:59
no one in this space right here?

D Dave Chow 25:02
I'll float right here

B Beth Oljar 25:03
Whatever you dream about isn't that the one everybody dreams about?

D Dave Chow 25:06
What flight?

B Beth Oljar 25:06
Yeah, I think so.

J Jeffe Boats 25:07
Oh invisible i Dream invisible.

D Dave Chow 25:09
That's creepy. Stalker creepy I mean like what are you gonna do with invisible

J Jeffe Boats 25:14
When I was little I wanted to be one of the Tomorrow People so I'm gonna go with teleportation, telekinesis, telepathy.

B Beth Oljar 25:20
I think that was cool

D Dave Chow 25:21
I kept on waiting for you Jeff to say something I want to be one of the Hercules or something like oh yeah

M Matt Mio, Ph.D. 25:28
Dan you're thinking about this I see that your gears turned.

D Dan Maggio 25:30
It'd be time travel

M Matt Mio, Ph.D. 25:31
Of course

D Dan Maggio 25:32
Because you could get other powers by being able to go sufficiently into the future

D Dave Chow 25:37
you just want to repair your credit history that's all.

M Matt Mio, Ph.D. 25:46
that's so funny.

D Dave Chow 25:48
Heather time traveled too so she can plant.

M Matt Mio, Ph.D. 25:50
I know Heather, Steven Come on. This is-

J James Tubbs 25:54
you can see how they bloom

you can see how they bloom

D Dave Chow 25:57
Or you can chase away the critters chase away the whistle pigs before they get your plants.

H Heather Hill 26:02
I you know, I - I always thought it was cool when on the witch they were always flying everywhere you know on the brooms. Maybe flying either that or turning water into wine.

J Jeffe Boats 26:16
You can catch the Whistle pigs from the air.

M Matt Mio, Ph.D. 26:17
Yeah.

B Beth Oljar 26:18
that will get you beatified so you can be the second American saying.

H Heather Hill 26:21
turning water into wine.

S Stephen Manning 26:26
This is not my right thing I all I can think of is the spider man because of the sticky finger things and

D Dave Chow 26:33
then climb up walls and

S Stephen Manning 26:35
I was thinking of that because this guy who escaped apparently did a crowd walk up a wall and it made me think of the spider man

J James Tubbs 26:42
but did you watch him do it?

D Dave Chow 26:45
What do you have to do though he like hidden the woods for like three or four days and didn't eat anything.

J Jeffe Boats 26:50
He drank water out of stream. He waited on the edge of tree lines until dark and he was he - got around

B Beth Oljar 26:58
He got caught anyway.

M Matt Mio, Ph.D. 26:59
Got caught Anyway.

B Beth Oljar 26:59
Probably make a movie.

M Matt Mio, Ph.D. 27:00
13 days. Yeah, it's not bad. Netflix you're greenlighted? Yeah, I mean, let's that's the way it's gonna go. There'll be a movie out before the end of the year.

J James Tubbs 27:09
Where are they going to find somebody five feet tall though to play him?

H Heather Hill 27:12
Oh, is he short? I didn't realize he was that short.

—

D Dave Chow 27:13
Just camera angles. Nothing that we can't take care of Tom Cruise.

S Stephen Manning 27:21
Tom Cruise in flats.

M Matt Mio, Ph.D. 27:22
That is the perfect segway. The time has come for us to say goodbye Heather.

H Heather Hill 27:29
Bye bye

M Matt Mio, Ph.D. 27:29
Stephen

S Stephen Manning 27:30
Bye bye,

M Matt Mio, Ph.D. 27:30
Jeff

S Stephen Manning 27:31

M Matt Mio, Ph.D. 27:31
